

## Assessment Task 1

### Part 3 - Roleplay Instructions

Eddie Bilson has come into the legal service to further discuss the native title claim and to bring the documents.

Your meeting will take approximately **ten (10) minutes** and you need to take notes throughout.

Another student or your assessor will play the role of the client and your assessor will complete the **Observable Behaviours Checklist**.

You will be assessed on your ability to engage the client and whether you cover each of the topics listed below.

During the interview:

- Introduce yourself as a paralegal and explain that you will be conducting the interview and then discussing the information with the Supervising Lawyer
- Record your client's name, DOB, address
- Confirm what their legal issue is and ask if they have the following documents to support the claim:
  1. Authorisation from the claimant group for him to act on their behalf in the application
  2. Description of the claimed area
  3. Description of the native title claim group as being made up of all the descendants of particular, named ancestors
  4. Description of Native Title Rights claimed by the X People
  5. Evidence in the form of affidavits and anthropological and historical reports.
- Ask what questions they have for you.

You need to take notes during the interview and these notes must be submitted as the next part of this assessment (see Part 4 - File Note).
